Clinic Internship

Each Scholar will be assigned to one of the clinic sites belonging to Community Health Partnership's consortium network for six weeks in the summer. Students conduct meaningful work with interdisciplinary teams in addressing the social determinants of health through developing a community improvement project. Upon program completion, Scholars earn a stipend and a certificate sanctioned by the Health Resources Services Administration.

Education and Training

Scholars will complete 30 hours of online didactic learning and 10+ hours of in-person training focused on the essentials of becoming an effective health professional.

Program Eligibility

- Interested in primary care and community health
- Currently enrolled in a health professions program
 - Public Health
 - Nursing
